<b>General assessment criteria</b> <i>Refer to the general criteria</i>	<b>ACHIEVEMENT LEVEL</b>	<b>Comments</b>
<b>A</b> research question	2	Clearly stated and sharply focused
<b>B</b> approach	3	The problem is set in context and the method of approach is explained clearly
<b>C</b> analysis/interpretation	3	A competent analysis although a little more understanding of the experimental method used could have been shown
<b>D</b> argument/evaluation	4	A convincing, well-developed argument which is lucidly explained
<b>E</b> conclusion	2	Excellent conclusion and areas for further investigation identified
<b>F</b> abstract	2	All three components stated clearly
<b>G</b> formal presentation	2	Very good but slightly disjointed in the way it is set out so not excellent
<b>H</b> holistic judgement	3	Shows considerable initiative and personal engagement
<b>TOTAL OUT OF 24</b>	<b>21</b>	

<b>Subject assessment criteria</b> <i>Refer to the subject guidelines</i>	<b>ACHIEVEMENT LEVEL</b>	<b>Comments</b>
<b>Criterion J</b>	4	The underlying chemistry is used well and clearly understood
<b>Criterion K</b>	4	Extremely competent with clear evidence of a personal approach
<b>Criterion L</b>	3	Good supporting evidence and analysis but some uncertainties are not analysed thoroughly
<b>Criterion M</b>		
<b>TOTAL OUT OF 12</b>	<b>11</b>
